UDGAM 2026

HOUSIE

Official Rulebook — UDGAM 2026

RULES AND REGULATIONS:

- Each participant will be issued standard printed ticket(s) containing a 39 grid with 15 numbers (5 numbers per row).
- The official caller will draw numbers randomly from a pool of 1 to 90 and announce them clearly to all participants.
- Participants must mark off the called numbers on their tickets as they are announced. Numbers cannot be marked prior to being called.
- To claim a prize combination, the participant must immediately call out "Housie!" or "Bingo!" along with the specific prize category (e.g., "Top Line") right after the number required for completion is announced.
- Claims must be made before the caller draws and announces the next number. Once the next number is called, previous unclaimed winning combinations for that draw are void.
- The event judges/coordinators will physically verify the claimed ticket against the master board of called numbers

Winning Categories & Judging Criteria:

Participants will be judged based on the valid completion of the following standard categories

- Early Five: The first participant to mark off any 5 numbers on their ticket.
- Four Corners: The first participant to mark off the 4 numbers located at the extreme corners of the ticket (the 1st and 5th numbers of the Top Line, and the 1st and 5th numbers of the Bottom Line).

- Top Line: The first participant to mark off all 5 numbers in the top row.
- Middle Line: The first participant to mark off all 5 numbers in the middle row.
- Bottom Line: The first participant to mark off all 15 numbers in the bottom row.
- Full House: The first participant to mark off all 15 numbers on their ticket

Tie-Breaker & Verification Rules:

- Validation: A claim is considered valid only if all marked numbers in the claimed pattern match the numbers pulled on the caller's master board.
- Bogey Penalty: If a participant falsely calls a claim (incorrect marking, uncalled number marked, or late claim), the claim is declared invalid (a "Bogey"). The participant may face penalties or disqualification depending on severity.
- Tie-Breaker: If two or more participants complete and claim the same winning category on the exact same called number, the prize money/points for that category will be divided equally, or a tie-breaker call round may be conducted at the judges' discretion.

Disqualification Criteria:

A participant may be disqualified for:

- Marking numbers on their ticket that have not been officially drawn and announced by the caller.
- Deliberately altering, overwriting, or tampering with ticket numbers to forge a winning pattern.
- Making repeated false/spurious claims ("Bogey") that disrupt the flow of the event.
- Exchanging, swapping, or trading tickets with other participants after the game has commenced.
- Refusing to follow instructions given by the event caller, judges, or student coordinators.
- Engaging in any form of misconduct, cheating, or disturbing the event environment.
- The decision of the event judges/organizers regarding claim verifications, penalties, ties, and disqualification will be final.
